Training Description:

This 2-day course will fast track your agency into building a robust wellness program and prevent the stigmas that have been haunting the first responder community for years. In this course, we will discuss foundational aspects of wellness and building out your program, how to fund your program, balancing the many layers of wellness, preventing substance abuse, suicide, worker's compensation claims and how preparation of your troops and their family in the beginning of their career, can lead to a long, healthy, career and retirement.
